PETER JONES JOINS ROZETTA TECHNOLOGY AS CHIEF PRODUCT OFFICER

16 May 2023

Sydney, Australia - 16 May 2023 - RoZetta Technology is delighted to announce the appointment of Peter Jones as Chief Product Officer. Peter will be London based and responsible for driving growth across channel partners and end users for the capital markets DataHex product suite.

"W*e are thrilled to welcome Peter to our team,"* said David Sharp, CEO RoZetta Technology.

"His extensive industry experience developing and leading growth across data, analytical and technology products perfectly complements our history of building and managing global data management platforms. Peter's extensive industry network within capital markets will ensure a continued drive for product innovation and value delivered to our customers."

With over 20 years of experience in product management and development, Peter brings expertise in defining and delivering innovative products that meet the evolving needs of customers. He has a proven track record of building strong collaborative relationships with channel partners and users. Prior to joining RoZetta, Peter worked in banking at HSBC and held a number of senior product roles at global data vendors including S&P and IDC (now ICE).

"I am excited to join RoZetta Technology as Chief Product Officer," said Peter.

"Capital markets data vendors and data consumers are looking for low-risk data migration cloud solutions to modernize their data management technology stack and enable increased speed to market for new products. RoZetta's world-leading technology delivers a proven market solution and I am looking forward to being part of the team delivering innovative products that solve industry problems."

About RoZetta Technology

RoZetta Technology's capability is deriving value and insights from big data and analytics through our DataHex platform, data science, managed services, and cloud technology expertise. We have built a strong reputation for building and operating world-class large-scale data and analytic solutions for financial, utility, energy, telecommunications, and government market clients. Our experience is unrivaled in dealing with the complexities of ingesting, curating, and managing global exchange data on behalf of clients such as ICE, Thomson Reuters (now Refinitiv) and Morningstar.

Our team of data scientists and technologists use a research-driven, systems-design model that has delivered over $4b in returns to our industry partners. Together with our clients, we continue to develop and refine next-generation technology solutions.
